PRESCIENCE CONTROLS

Prescience Controls is a unique industrial technological destination headed by Mr. B.D. Nehe & Mr. Sachin Sonawane since 2007, delivering customised & state-of-the-art driven automation techniques resulting in better product outcomes in a rich quality.

At Prescience Controls
*'Innovation meets
Automation'*

Industrial automation is enabling the way in which designs are communicated, snags are solved and businesses are successfully run in today's world.

The organisation takes ownership of manufacturing & exporting a wide range of PLC based control panels, AC drives control panels & industrial automation products.
